

1st Asia-Europe Innovation Dialogue

The Future of Urban Innovation

Program of the 10th Asia-Pacific Weeks I May 27-28, 2015

LABS TO PUBLIC is a 2-day expert gathering of Asian and European Innovation Laboratory practitioners taking place during the 2015 Asia-Pacific Weeks. Invited are 100+ entrepreneurs, scientists and urban innovators to share their experiences in building the next generation of education and technology research labs, co-working spaces, startup accelerators and technologies for smart cities.

The program of LABS TO PUBLIC hosts workshop, keynotes and experts exchanges about:

- Startup Acceleration, High-Tech Company Building and Research & Science Incubation
- Internet of Things and Big Data Infrastructures
- Demographic Change, Education, Social Inclusion and Participation
- Open Data, Urban Innovation Architectures and Ecosystem Design
- Sustainable Resource, Energy and Waste Management, Collaborative Consumption
- Public Policy Innovation, Strategies and Transdisciplinary Innovation Processes

ABOUT INNOVATION DIALOGUES

Innovation Dialogues are a new multi-stakeholder format developed by the Senate Department for Economics, Technology and Research. After the kick-off in December 2014, Labs to Public continues the City of Berlin's efforts to provide new education, networking and prototyping formats for the development of international partnerships, project kick-offs and long-term cooperation platforms. As part of the official program of the Asia-Pacific Weeks 2015, Labs to Public cordially invites all partners and visitors, to join Labs to Public Events during the 10th year of the Asia-Pacific Weeks.

Bringing together Asian and European Innovation Cultures, this Labs to Public event creates a participatory prototyping environment about the future of global and local collaboration.
